Three pillars

VISION

Campus Bio-Medico University Hospital (CBMUH) wants to be a place where **care, education and research** on new therapies and care models are centered on the **individual**.

MISSION

«**Science for People**» is the synthesis of the mission of Campus Bio-Medico University and in the University Hospital it supports the **best standards of care**, giving an answer to the health needs of the people

VALUES

CBMUH is inspired to these values:

- Patient centricity
- Good relationship with the users
- Prevention and health promotion
- Information and communication
- Ethics
- Timeliness in the care
- Performance and quality
- Safety and health of HCW
- Enhancement of HCW
- Accountability
- Innovation and integration
- Environmental sustainability

Our hospital has multidisciplinary wards, with more than 50 units distributed on five floors. We are accredited by the NHS and by JCI and give care both in a public (free) and a private (under payment) scheme. We give continuous, day care and ambulatory care and have an emergency department. Our model is characterized by interdisciplinarity and equipe work, with different professionals engaged, both inside the Units and among them, and we have implemented clinical paths for many important diseases.

Structure data

389 hospital beds
