

Fundació Puigvert

THE FUNDACIÓ 2025

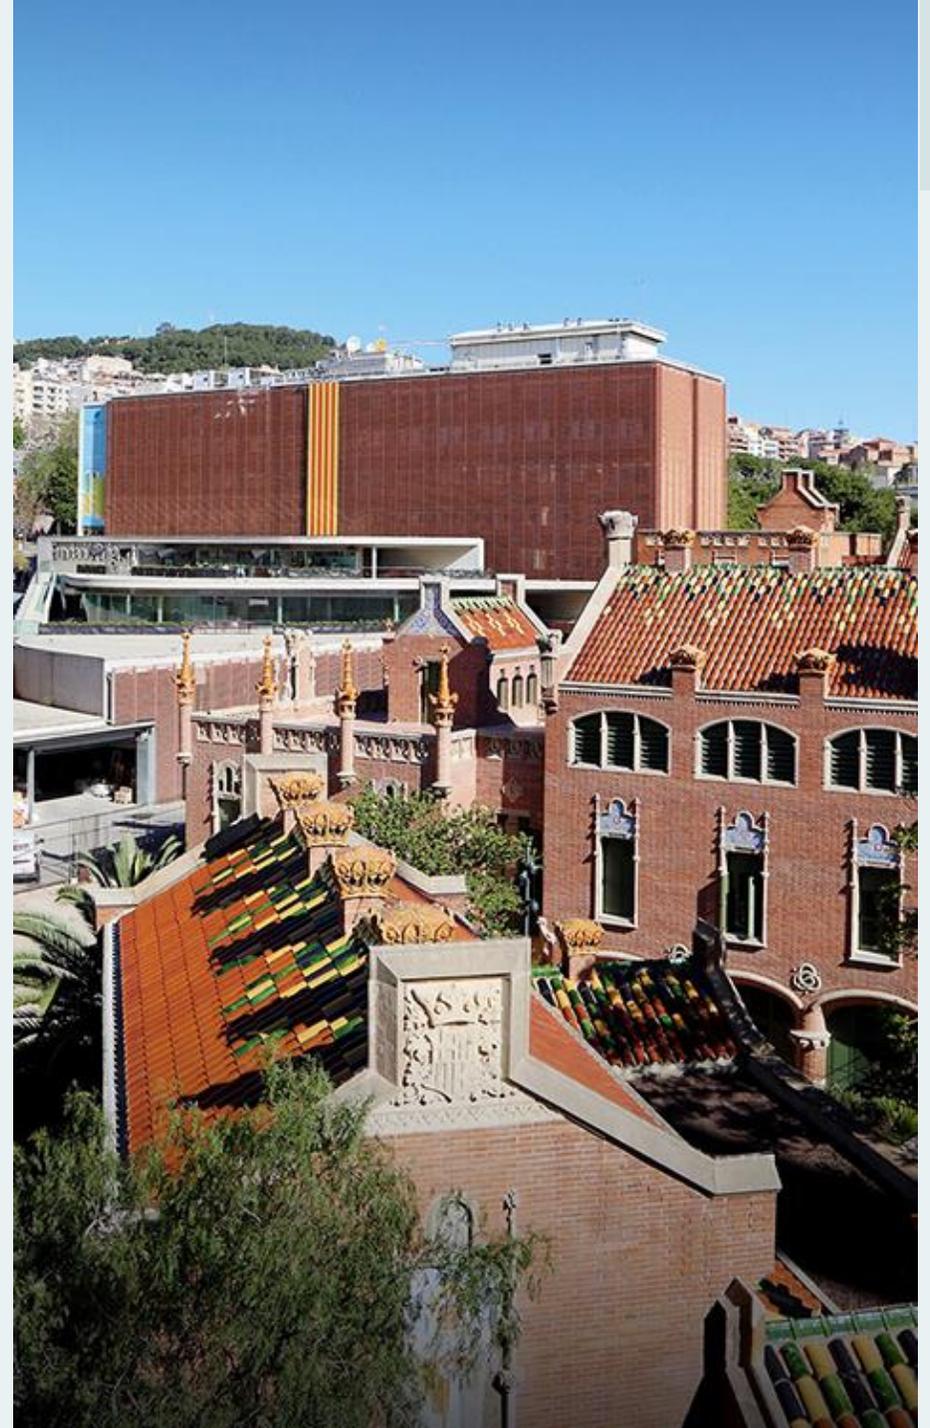

01. Relevant aspects

Fundació Puigvert is an urban university hospital located in the centre of Barcelona (inside the walls of the Sant Pau Art Nouveau Site) constituting, together with the new Hospital of Sant Pau and Santa Creu, a hospital complex and a campus of knowledge. It was founded in 1961.

Integrated in the health public network (SISCAT), it is a monographic center of reference for the whole Catalan territory and provides services in Barcelona, on the right side of the Eixample.

DISTINGUISHING FEATURES (1)

Monographic hospital, university, pioneer, of international reference. Non-profit foundation. Recognized for its culture of quality and safety.

Focused on comprehensive care in andrology, reproductive medicine, nephrology, specialized clinical psychology and urology, with advanced urological robotic surgery. All modalities of medical care.

Centre of reference in kidney transplants and in minority renal and urogenital diseases (is part of the CSUR, XUEC, ERKNet, and Eurogen networks).

Mutual collaboration with the Hospital de la Santa Creu i Sant Pau in healthcare attention processes. SISCAT Network. Public and private care.

DISTINGUISHING FEATURES(2)

University center ^{1,2} affiliated to the UAB and the University of Vic-UCC for teaching undergraduate, second, and third cycle studies. **Fundació Puigvert Chair of Robotic Surgery in Urology (UAB).**

Centre recognized for **specialized training** ^{1,2} in the medical field (MIRs, Fellow), and in specialized nursing and clinical psychology among others. **Exchange** programmes with centres around the world. Expert Patient Programme (in Chronic Kidney Disease.)

Research and innovation centre integrated with seven other entities in the health sector in Catalonia, IIB (Sant Pau) and ISCIII. XISCAT and Barcelona Health Hub

Responsible governance health foundation, with the aim of contributing to society and **caring for the environment.** Adhered to the **United Nations Global Compact.**

(1 i 2) Ministerio de Sanidad, Departament de Recerca i Universitats Generalitat de Catalunya), Universitats (Universitat Ramón LLull, UIC, UB... entre d'altres)

STRATEGIC PLAN 21-25

Fundació Puigvert must provide a high **social value**, with a quality and safety care model **based on the patient** and an **innovative portfolio of services**.

It must be a **leader in clinical services, teaching and research**.

ENVIRONMENTAL SUSTAINABILITY

- 1. Reduction of 53% of non-hazardous waste:**
 - ▶ De 799.709 kg (2021) a 376.587 kg (2024)
 - ▶ Result of the cross-cutting reduction plan: better sorting and recycling
- 2. Elimination of anesthetic gas N₂O in operating rooms.**
 - ▶ Zero emissions of a gas with high greenhouse effect power
 - ▶ Improvement of air quality for patients and professionals
- 3. Decrease in energy consumption**
 - ▶ From 1,200,537 kWh (2021) to 978,409 kWh (2024)
 - ▶ Replacement with LED technology, improvements in climate control and insulation
- 1. Reduction of water consumption**
 - ▶ From 31.144 m³ (2021) to 30.459 m³ (2024)
 - ▶ Measures of control, efficiency, and optimization of systems
- 2. Carbon footprint 2024: 602,52 tCO₂eq**
 - ▶ 3rd consecutive year of calculation
 - ▶ Monitoring to set decarbonization goals
- 6. Optimization of processes with a sustainable vision**
 - ▶ Cross-cutting projects to reduce materials, waste, and energy consumption
- 7. Promotion of an active environmental culture**
 - ▶ Internal awareness and training campaigns
 - ▶ Responsible purchasing and environmental criteria for services
