Morning | Facility Visits

07:30 | Meet in Hotel Lobby for Departure

07:40 – 08:00 | Travel to Evangelismos General Hospital

Public tertiary / university-affiliated hospital – 1000 beds

Type: Major public tertiary and teaching hospital

Capacity: 1000 beds

Evangelismos is one of Greece's largest and most prominent public hospitals and a major referral center for Athens and the wider country. It operates within the Greek National Health System and combines tertiary acute care, highly specialized medicine, emergency services, teaching and clinical research.

The hospital has a broad multidisciplinary structure covering internal medicine and surgical specialties, cardiology, neurology and neurosurgery, oncology and hematology, intensive care, mental health, diagnostic imaging and laboratory medicine, among other fields.

It also operates extensive outpatient and emergency services and manages complex cases referred from other healthcare facilities.

Its scale and central role within the public healthcare system make Evangelismos representative of the large public tertiary hospital model in Greece. The hospital also plays an important role in medical education, professional training and clinical research.

TUESDAY, SEPTEMBER 29, 2026 (continued)

08:00 – 10:00 | Evangelismos General Hospital Facility Visit

Delegates will hear presentations from the staff and tour the facility. Evangelismos is affiliated with the National and Kapodistrian University of Athens and plays a crucial role in training medical students and residents. It supports a wide range of postgraduate education programs and is involved in clinical research, often partnering with international institutions

10:00 – 10:30 | Travel to Onassis Public Hospital

Type: Highly specialized hospital

Capacity: 185 inpatient beds + 54 intensive care beds

Onassis Hospital is one of Greece's flagship institutions for highly specialized cardiovascular medicine, cardiac surgery and transplantation.

The expanded hospital brings together the historic Onassis Cardiac Surgery Center, the National Transplant Center and a dedicated Children's Unit, creating an integrated specialist campus providing advanced care for both adults and children.

The hospital has a particularly important national role in heart and lung transplantation, alongside advanced cardiology, interventional cardiology, cardiac surgery and pediatric cardiovascular medicine.

Its infrastructure incorporates sophisticated medical technologies, intensive care facilities, advanced diagnostic and interventional equipment and hybrid operating environments designed for highly complex procedures.

Digital transformation and innovation are also important components of the institution's development, including initiatives associated with the concept of the "Hospital of the Future."

10:30 – 12:30 | Onassis Public Hospital Facility Visit

Delegates will hear presentations from the staff and tour the facility. The Onassis Hospital is a non-profit hospital established through a donation from the Onassis Foundation to the Greek State. It is a non-profit legal entity under private law, forms part of the General Government and operates under the supervision of the Greek Ministry of Health.

TUESDAY, SEPTEMBER 29, 2026 (continued)

06:30 – 11:00 | Breakfast at MFlavours Restaurant, 9th Floor

(traveling companions invited)

Delegates individually enjoy private business discussions over breakfast at your leisure in the MFlavours Restaurant at the hotel (included with your stay). The restaurant is located on the 9th floor.

Morning | Healthcare Delivery Models

07:50 | Meet in Hotel Lobby for Departure to Hygeia Hospital

08:00 – 08:55 | Travel to Hygeia Hospital

Type: Leading private general hospital

Capacity: 315 beds, including 33 ICU beds

Operating rooms: 18

Founded in 1970, HYGEIA is one of the major reference institutions in Greece's private hospital sector. Its facilities cover approximately 30,000 m² across 17 floors.

HYGEIA provides a broad spectrum of medical and surgical care, including cardiology and cardiac surgery, oncology, neurology and neurosurgery, orthopedics, general and specialized surgery, diagnostic imaging, intensive care, emergency medicine and outpatient services.

The hospital is particularly notable for its investment in advanced medical technology. Its facilities and services include robotic surgery, PET/CT, Gamma Knife radiosurgery and a multidisciplinary hybrid operating room.

Quality management and patient safety are also central to its model. HYGEIA was the first hospital in Greece to achieve Joint Commission International (JCI) accreditation.

The hospital therefore represents a major example of how the Greek private healthcare sector combines comprehensive clinical services, advanced technology, international quality standards and patient-oriented services.

WEDNESDAY, SEPTEMBER 30, 2026 (continued)

09:00 – 10:30 | Centre of Reference (Hygeia Hospital) Facility Visit

Delegates will hear presentations from the staff and tour the facility. The Hygeia Hospital was founded in 1970 by a group of Greek doctors, with the aim of creating a model for the country of a private hospital. It is the first large private nursing institution that operated in Greece and is one of the largest private hospital units in the country.

10:30 – 11:15 | Travel to Alexandra's Health Center

Type: Public primary healthcare center

Authority: 1st Regional Health Authority of Attica

Capacity: Outpatient facility

Alexandra's Health Center represents the public primary and community healthcare level of the Greek healthcare system, in contrast with the three hospital facilities above.

The center operates within the primary healthcare network overseen by the 1st Regional Health Authority of Attica (1η ΥΠΕ Αττικής).

It serves as an access point for primary medical care, prevention, diagnostic investigations and outpatient healthcare services. Services include medical consultations as well as laboratory and imaging examinations.

An important component of the facility is its Mother, Child and Adolescent Protection Unit, providing dedicated primary and preventive healthcare services for these populations. Alexandra Health Center therefore illustrates the role of public primary healthcare facilities in delivering care outside the acute hospital environment and providing accessible community-based services.

11:15 – 12:30 | Primary Care Center (Alexandra's Health Center) Facility Visit

Alexandra's Health Centre is one of the strongest public primary-care facilities in Athens, offering broad outpatient care and 24-hour emergency-duty services. It covers many core specialties, including general/internal medicine, pediatrics, cardiology, gynecology, dermatology, endocrinology, neurology, orthopedics, urology, ophthalmology, ENT, pulmonology, psychiatry, dentistry, and more, alongside diagnostic services such as blood draws, X-rays, ultrasound, vascular triplex, bone-density measurement, Pap/HPV testing, and dental panoramic imaging.

WEDNESDAY, SEPTEMBER 30, 2026 (continued)

12:30 – 13:00 | Travel to Kuzina for Lunch

13:00 – 14:30 | Lunch at Kuzina

14:30 – 15:00 | Return to Hotel for Afternoon Sessions

Afternoon | Wrap-up and Forward-Looking Session

15:00 – 16:30 | Roundtable 3: Pharmaceuticals & Biotechnology

Delegates will engage in a third roundtable discussion regarding pharmaceuticals and biotechnology in Greece. Faculty will include:

1. Dr Aris Angelis, PhD

Secretary General for Strategic Planning

Visiting Associate Professor, London School of Hygiene & Tropical Medicine

Member, Committee for Medicinal Products for Human Use, European Medicines Agency, Ministry of Health

Dr Aris Angelis is Secretary General for Strategic Planning at the Greek Ministry of Health. Formerly Assistant Professor of Health Economics at the London School of Hygiene & Tropical Medicine, he leads national policy on pharmaceuticals, digital health, strategic planning, and European health initiatives.

2. Professor Nikos Maniadakis

Professor of Health Services Management & Policy

School of Public Health, University of West Attica

Professor Nikos Maniadakis is Professor of Health Services Evaluation, Management and Policy at the University of West Attica. An internationally recognized health economist, he has advised governments and international organizations across Europe and has over 25 years of experience in healthcare policy, financing, and system reform.

WEDNESDAY, SEPTEMBER 30, 2026 (continued)

16:30 – 17:30 | Final Thoughts and Wrap-up

Delegates will engage in a “what have we learned” session from all sessions throughout the week. The goal of this final wrap-up is to share perspectives within the delegation. What seems to be working well in Greece? Where do they struggle? How do these align with the challenges we face back in the US? What can we bring back and implement upon our return to the US? How does this experience help us change healthcare for the better going forward?

18:40 | Meet in Hotel Lobby for Farewell Reception

19:00 – 21:00 | Farewell Reception at Amphibian Restaurant

(Clothing notation: smart business casual, no sneakers)

We will close our time together in Athens with a closing reception at Amphibian Restaurant. Traveling companions, and faculty from throughout the week, will all be invited.

21:20 | Approximate Return to the Hotel
